**Clarksburg CII School District
401 South Highway H
Clarksburg MO 65025**

Nathan Bestgen Superintendent

As per my conversation with USAC employee I was told since I had a continuing service from last a previous agreement. I did not need to complete a 471 when I called to inquire about when the 471 window would be opening.. I asked a couple times if they were sure and if they would be needing anything else so that I would be considered for the discount on our internet access they reassured me that I would not.

I ask for a waiver and consideration for our 471 to be considered at this time as this discount plays a big part of our districts success.
